

Central Intelligence Agency

Washington, D.C. 20505

25 JUN 1985

Mr. Edward J. O'Malley  
Assistant Director  
Intelligence Division  
Federal Bureau of Investigation  
Washington D.C. 20535

Dear Mr. O'Malley:

STAT Our office has developed an intensive five-week program for career trainees--new professional officers with high potential--from the Agency's Directorate of Science and Technology. As a conclusion to the portion of the program devoted to security, we would like to have the FBI present a segment which would consist of what has been learned from the study of cases such as Kampiles, Boyce and Lee, the Walkers, and others. It should also include a discussion of how what has been learned can be used to improve security in the future. [redacted] of our office has discussed this with Jay Alhuyser, FBI Liaison Officer, in some detail.

STAT  
STAT The presentation described would be scheduled for 1 August 1985, from 1400 - 1630, in Room 912 of the Chamber of Commerce Building. The Bureau's participation would be greatly appreciated. Details may be coordinated with the course directors, [redacted] and [redacted]

STAT  
Sincerely,

[redacted]  
Director  
of  
Training and Education
